

Be Eco friendly and planet aware

Water is a precious resource in Eswatini and therefore we all need to do OUR bit to preserve and sustain it.

Therefore, if you would like your towels laundered please place them in the bath or shower to indicate that you would like a fresh set, however if you can wait another day or two then do hang them up again

If you are staying for a few days and would like your bedding changed daily then please put the welcome basket on your bed.

With thanks
